Hi Florin,

Please find attached for Plot 277 remedial pile work.

The plot will have to shift by 140mm as marked up on the sketch attached. For the remedial work, please follow the provided PDF and DWG drawing.

Florin,

As explained, the issue was that we could not clearly identify the coordinates on any of the drawings provided, whether in DWG, DWF or the other formats.

Hopefully, the revised drawing attached will now provide the information required and allow us to assist further.

Regards,

From: Florin Christescu <Florin.Christescu@houlihans.co.uk>

Good morning Cristina,

I don't understand what the issue is, as I provided the same drawing and the raw survey data exported directly from the instrument for the previous survey, and there were no problems.
I have now added the coordinates of the centre of each pile surveyed directly to the drawing. Hopefully, this will make things clearer.
If you require any further assistance, please let me know.

Regards,

Florin Christescu

Hi Florin

Back to square one!

The information you have provided is still not clear. Please see below.

I personally cannot identify the correct reference numbers on the DWG by freezing the layer as suggested.

Hi Cristina,

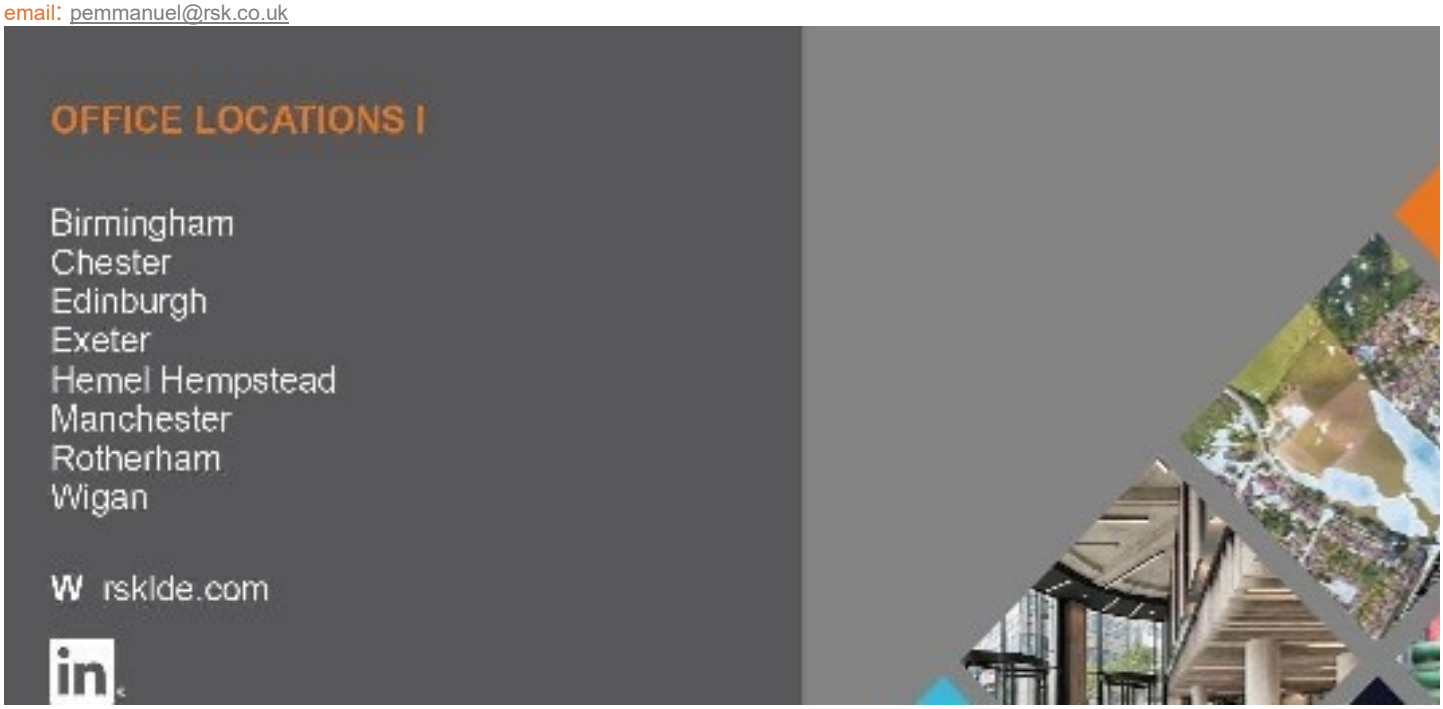

The coordinates received contain 36 piles but we have only 12 piles on this plot. Could you please send us the pile coordinates that matches with our pile references for us to review.

Hi Peter,

Please find attached. I couldn't work out how to isolate them on the DWG.

Hi Peter,

I'll ask for the as-built pile coordinates. We seem to keep missing these off.

In the meantime, it is acceptable to shift the house to suit the as-built pile positions.

Regards,

Good afternoon Cristina,

Please find attached the pile survey carried out for Plot 277.

I understand that the pile has already been surveyed in accordance with the drawing notes. However, I have not received a copy of that survey to overlay against my own survey for comparison.

The coordinates shown on the drawing are consistent with those in the attached survey.

Could you please forward the attached survey to the engineers for review and let us know how we should proceed?

I would appreciate your feedback as soon as possible.

Regards,

Florin Christescu

Senior Engineer
