Barton Hill Drive
Minster on Sea,
ME12 3LZ

Dear Resident / Occupier,

We are writing to inform you of upcoming highway improvement works on Barton Hill Drive, Sheerness.

From Monday 12 October 2026, two-way temporary traffic lights will be erected on Barton Hill Drive for a period of approximately two weeks to allow highway improvement works to be undertaken safely. Please note that the temporary traffic lights will remain in operation 24 hours a day throughout this two-week period.

Following this period, a section of Barton Hill Drive between No. 282 and No. 232 will then require a temporary night-time road closure. The night-time closure is scheduled to commence on Monday 26 October 2026 and will take place over five nights, between the hours of 7:00pm and 5:00am. The road will be reopened each morning from approximately 5:00am and will remain open during the daytime. A signed diversion route will be in place for through traffic during each night-time closure.

**Access to Driveways**

Please be aware that vehicle access to and from private driveways within the closure area will be very limited during the closure and working hours. Our site team will assist residents where it is safe and practical to do so; however, due to the nature and location of the works, vehicle access cannot be guaranteed at all times.

In particular, on the evening of Tuesday 27 October, access to and from driveways may not be possible for extended periods. If you require access to your vehicle during the evening or overnight on 27 October, please arrange alternative parking outside the closure area before 7:00pm.

**Medical, Care or Essential Access**

If you have a medical appointment, care visit, emergency requirement or other essential access requirement during the closure period, please contact me in advance using the email address below.

We will review the arrangements and make every reasonable effort to accommodate essential access where it is safe and practical to do so. We would also kindly ask residents not to park within the working area during the closure hours, as parked vehicles may restrict the works and result in delays.

**Traffic Management Plans & Works Area**

For further clarity regarding the temporary traffic lights, road closure, traffic management arrangements and extent of the works area, please scan the QR code below.

We appreciate that these works may cause some disruption and inconvenience and would like to thank you in advance for your patience and cooperation while the works are completed. Should you have any questions or concerns regarding the works, please do not hesitate to contact me using the details below.

Many thanks for your understanding.

Kind regards,

Jack Ramsey
